Featuring your own designs and custom-made to your needs.

PayLife. Bringing life to your sales.

The perfect gift voucher solution

Nowadays more than half of all presents are gift vouchers. Combining ease of use with individual design and cost efficiency, PayLife Gift Cards present an ideal solution for shopping centres.

Available under the Maestro or Mastercard brand, they are a **simple and efficient marketing tool** – featuring your own designs and custom-made to your needs.

Your advantages

You can sell the cards wherever you wish: at an information counter, a service office or through your online shop. The customer chooses the credit balance to be loaded when buying the card and **can use it in any shop that accepts Mastercard or Maestro** – simply via the existing POS payment terminal.

There is **no need to arrange reimbursement** of vouchers with shop owners – payment amounts are simply shown on their regular Maestro/Mastercard accounts.
